

**To Resident/Owner:**  
**RE: Film Location Search**

My name is Jason Kay, and I am a Location Scout working with the Edmonton Screen Industries Office on an upcoming independent feature film that will be shooting in Edmonton in March of 2025.

The film is set in the late 1960's, and the production team is looking for interior layouts of homes that could potentially fit the era. This is a paid opportunity.

If your home meets either of the following requirements below, or is reasonably similar, we would be happy to discuss the possibility of working with you to use your home in the film!

**Location #1**

*One modestly sized, two story house. Kitchen/Living/Dining area on first floor, hallway upstairs separating three rooms. Ideally a house has floral wallpaper or wallpaper of some kind.*

**Location #2**

*Three modestly sized, one story houses with traditional mid century floor-plan (two bedrooms and bath separated by decent length hallway from the living/kitchen area). One of these homes should ideally have wood paneling or wood features on the wall. (See attached floor plan)*

If you are comfortable sending photos of your home, you can do so at the provided email address, or you can contact me to discuss alternatives.

If you have any questions, please don't hesitate to reach out.

Regards,

**Jason Kay**
